

Häfele

German Precision

For Modern Living Spaces

In the world of architecture and interior design, details are everything. The quiet click of a door closing smoothly, the elegant organization of a kitchen drawer, the way light reflects off a sleek surface in a well - appointed bathroom - these are the moments that define a space. And behind many of these moments is Häfele, a German brand trusted globally for its commitment to precision, quality, and innovation.

From contemporary residences in the heart of the city to luxury resorts along Vietnam’s pristine coastline, Häfele has established itself as a name synonymous with complete, high - performing solutions that elevate everyday living. More than just a supplier, Häfele is a partner in design - offering thoughtful, integrated systems that respond to the evolving needs of modern lifestyles and diverse architectural visions.

What sets Häfele apart is its ability to adapt - providing solutions that not only meet functional demands but also enhance the beauty and value of the space. Kitchens become more than cooking areas; they transform into efficient, inspiring environments that blend design with usability. Bathrooms are no longer just utilitarian but are reimagined as personal sanctuaries. Entryways become statements of both security and elegance. Häfele’s holistic approach ensures that every element - from hardware and fittings to appliances and access systems - works in harmony to support seamless, stylish living.

Celesta Rise

This commitment to excellence can be seen in some of Vietnam’s most distinguished developments. At **Celesta Rise**, a landmark residential project in Ho Chi Minh City developed by Keppel Land and Phu Long, Häfele’s presence is woven into the very fabric of each home. In this green-certified urban retreat, Häfele’s modern solutions align perfectly with the project’s focus on sustainability and sophistication, contributing to an environment where design meets conscious living.
